
Same porosity, different conduction paths
Direction 1: solid black, pore white
phi=0.44995; k_FVM=32.409
Direction 2: solid black, pore white
phi=0.44995; k_FVM=4.810
Heat flow: left (T=1) to right (T=0)
Heat flow: left (T=1) to right (T=0)
Temperature field; porosity EMT=16.115
solid spanning fraction=0.821
Temperature field; porosity EMT=16.115
solid spanning fraction=0.000
